Inglewood Primary School BYOD iPad Apps 2024

Please ensure these apps are uploaded to your child's iPad prior to bringing the device to school.
Click on the app name for a link to the Apple iTunes store.
The following apps are preinstalled on the iPad:

| Logo	App Name	Description
	Clips Free, preinstalled	Clips is a free app for making fun videos to share with friends and family. With a few taps you can create and send a video message or tell a quick story with artistic filters, animated text, music, emoji, and fun stickers featuring characters from Star Wars, Disney•Pixar and more.
	Garage Band Free, preinstalled	GarageBand turns your iPad into a collection of Touch Instruments and a full-featured recording studio — so you can make music anywhere you go. And with Live Loops, it makes it easy for anyone to have fun creating music like a DJ. Use Multi-Touch gestures to play keyboards, guitars, and create beats that make you sound like a pro — even if you've never played a note before. Plug in a guitar or bass and play through classic amps and stompbox effects. Use a Touch Instrument, microphone, or a guitar and instantly record a performance with support for up of 32 tracks. Use the Sound Library to download additional free instruments, loops and sound packs created by some of the biggest producers in the world.
	iMovie Free, preinstalled	With a streamlined design and intuitive Multi-Touch gestures, iMovie lets you enjoy your videos and tell stories like never before. Browse your video library, share favourite moments, create beautiful movies and watch them on all your devices in iMovie Theatre. And with the iMovie extension, it's fast and fun to make every video more memorable — directly in the Photos app.
	Keynote Free, preinstalled	Keynote is the most powerful presentation app ever designed for a mobile device. Built from the ground up for iPad, iPhone and iPod touch, it makes creating a world-class presentation — complete with animated charts and cinematic transitions — as simple as touching and tapping.
	Numbers Free, preinstalled	Numbers is the most innovative spreadsheet app ever designed for a mobile device. Created exclusively for iPad, iPhone and iPod touch, Numbers includes support for Multi-Touch gestures and Smart Zoom so you can create powerful spreadsheets using just your fingers.
	Pages Free, preinstalled	Pages is the most beautiful word processor you've ever seen on a mobile device. This powerful word processor helps you create gorgeous reports, CVs and documents in minutes. Pages has been designed exclusively for the iPad, iPhone and iPod touch with support for Multi-Touch gestures and Smart Zoom.

The following apps will need to be installed from the App store:

Logo	App Name	Description
	Book Creator $4.49	Book Creator is the simple way to make your own beautiful eBooks, right on your iPad. With over 100 million eBooks created so far, Book Creator is ideal for making all kinds of books, including children's picture books, comic books, photo books, journals, textbooks and more.
	CapCut Free	CapCut offers easy-to-use video editing functions, free in-app fonts and effects, free advanced features such as keyframe animation, smooth slow-motion, chroma key, and stabilization, to help you capture and snip moments.
	iMotion $4.99	iMotion is an intuitive and powerful time-lapse and stop-motion app for iOS. Take pictures, edit your movie and export 1080p & 720p HD videos to your device or directly to YouTube.
	Microsoft Word Free	The trusted Word app lets you create, edit, view, and share your files with others quickly and easily. Send, view and edit Office docs attached to emails from your phone with this powerful word processing app from Microsoft. Students can log in to this app for free using their Education Department student login details.
	Microsoft PowerPoint Free	The PowerPoint app gives you access to the familiar slideshow maker tool you already know. Create, edit, view, present, or share presentations quickly and easily from anywhere. Students can log in to this app for free using their Education Department student login details.
	Micro:bit Free	The micro:bit app is the essential companion to the BBC micro:bit, the pocket sized programmable computer. The app allows you to flash any micro:bit hex file to your device, as well as including online access to the Microsoft MakeCode editor for simple block-based programming. When your program is ready, the app beams it to the micro:bit via Bluetooth wirelessly. Easy-to-follow screens lead you through the process of pairing your iPad (or iPhone) to the micro:bit and then transferring your program code.
	Pic Collage – EDU Collage Maker $2.99	Create a photo collage in seconds with our easy-to-use photo grid feature. Choose from a wide variety of grid layouts and pre-designed cards or use freestyle mode to create a photo collage on your own, unique style! Change the size of your photo collage with the touch of a button.
	Popplet $4.49	Popplet is the simplest tool to capture and organise your ideas. With Popplet you can quick jot down your ideas and sort them visually.
	Showbie Free	Showbie is the fastest, easiest, and most effective app for assignments and feedback in your iPad classroom. Teachers can assign, collect and review student work from thousands of compatible iPad apps, or students can complete assignments with Showbie's built in tools. Student work, with rich feedback using digital ink, text and voice annotations can be added to students' digital portfolios that can be securely shared with parents.
	Sphero Edu Free	Sphero Edu is your hub to create, contribute, and learn with Sphero robots - it replaces and builds on SPRK Lightning Lab. Go beyond code by incorporating unique STEAM activities to complete with your bot.
	Tayasui Sketches School Free	Because beautiful tools make beautiful drawings, we endlessly refined Sketches brushes to create the most realistic drawing tools. Sketches school is a special edition of Sketches targeted for a younger audience, with a specifically designed interface making it very accessible to kids.
	YouTube Free	Teachers will curate the videos that students are able to view. Teachers may record themselves teaching about a particular topic or ask students to watch worked examples or conduct research about the learning content. Students may also create videos that can be uploaded to the school website for sharing with the school community.
